VOLUME 10, NUMBER 1

JANUARY/FEBRUARY 2000

## The Follicular Eunuchs HAIR TRANSPLANT SURGEON BLUES

Woke up this morning, gotta hair transplant to do  
Follicular Units, micro, mini, big plugs too  
You listen to the experts, but you don't know what to do

**Chorus: It's just another part of the Hair Transplant Surgeon Hair Transplanting Blues**

Met my patient, man his expectation's high  
Said, gimme density, gimme hair like that Bill Clinton guy  
He said you better make thick if you know what's good for you

**Chorus**

Look at that donor hair, Lord I'm gonna take a strip  
Single blade, multiblade, I'm gonna let it rip  
Gonna cut me some grafts, maybe a thousand or two

**Chorus**

How should we cut them, backlight, scope, or naked eye  
All I know is don't let those follicles dry  
There is so much disagreement about just what to do

**Chorus**

Put those grafts in, well, just as fast as you can  
Don't you crush them, coordinate your eye and hand  
You can try to do it faster with automation that's what's new

**Chorus**

He's lookin' good and all the bleeding has stopped  
Better get him out of here before the grafts start to pop  
You say your goodbyes, but then his credit card won't go through

**Chorus**
