VOLUME 11, NUMBER 6

NOVEMBER/DECEMBER 2001

## Kudos to Drs. Avram and Sandoval

I thought the meeting in Puerto Vallarta was fabulous, but unfortunately no one publicly thanked Marc Avram and Arturo Sandoval for their work.

Marc put together a great program and I think most members knew and appreciated his work, but I don't believe many realized the efforts Arturo put into the meeting. He visited Puerto Vallarta four times prior to the meeting to be sure the hotel, entertainment, and overall arrangements were in place.

The tours, the food, the horses, the entertainment, the dancers, the parade, the fireworks, and all the cultural details were perfect.

Only someone living in Mexico and understanding the cultures could have made the meeting such an outstanding success. VIVA Arturo!!

*O'Tar T. Norwood, MD

Another  
memorable  
event!!
