Our 'haircare' concept. MeDioStar and Dermablate hare from Asclepion.

MeDioStar – the high-power diode laser without a speed limit.

- Highly effective and superfast epilation for all skin types
- Gentle thanks to additional skin cooling
- Large spots and high frequency
- Convincing thanks to simple, efficient application
- Ergonomic hand-piece with integrated trigger mechanism

Dermablate hare – the first Er:YAG laser for hair transplantation. And more.

- Precise preparation of the reception area for ease of implantation
- Safe and simple operation thanks to pre-programmed laser parameters
- Swift wound healing
- Special hand-piece integrating smoke suction with patented TEAM technology
- Complete range of applications, also for skin ablation

GRAFTCYTE[™] SYSTEM *A Head Start on Healing*

Specially formulated for hair transplanting patients, the GraftCyte[™] System provides a quick road to recovery by ensuring a healthy healing environment. GraftCyte[™] products enhance tissue repair while increasing patient comfort by keeping the graft area moist and richly supplied with our patented copper peptide microsystem.

Because patients will see reduced crusting and a rapid return of healthy hair, follow-up procedures are possibly easier than ever before. Convenient and easy to use, the GraftCyte[™] System can easily be tailored to any patient's lifestyle. Enhance the cosmetic benefit of your hair transplant procedure. *Give your patients a head start for a successful recovery.*
