

Top row (L to R): Lil Carr, Susan Fugate, Kelly Dwyer, Danielle Seng, Nancy Whyte, Hope English, MaryAnn Parsley
 Bottom row (L to R): Kristin McDonald, Julie Stuart, Dr. Bill Parsley, Renee Dickerson. (Not in picture: Courtney Roehrig and Lindsay Wildt)

In this issue I would like to introduce you to the staff of Bill Parsley, MD. MaryAnn Parsley has provided highlights of this outstanding team:

This is our wonderful office staff! Lil Carr is our office manager. She has been with Dr. Parsley since 1979. Her main hobbies are her two adorable grandsons, Konner and Colin. Susan Fugate is a nurse who cuts grafts. She keeps busy with her two beautiful daughters, Cassidy and Kennadi. Kelly Dwyer is a receptionist and helps Dr. Parsley with the *Forum*. Danielle Seng is a nurse who helps with the harvesting of the tissue and cuts grafts. Her pastime is being a great aunt to Hailey and Braden. Nancy Whyte is a nurse who has been with Dr. Parsley for almost 22 years assisting him with the hair transplants. She has been through the large plug transplants to the follicular unit grafts. To her credit, she switched over to the microscopes with no looking back. She enjoys her pets, Isabelle and Chloe, and her family, Bob and Blair. Hope English is a nurse who cuts grafts and plants grafts with Dr. Parsley. She enjoys her time away from work with her daughter Faith. MaryAnn is Dr. Parsley's wife and a nurse who helps with everything in the practice. In the transplants, she slivers the strip, cuts grafts, and plants alongside of Dr. Parsley. Her hobbies include golf, hiking, traveling, and spending time with her family and friends. Kristin McDonald is our head receptionist and surgery scheduler. Her hobbies include soccer and being a mom to Rylie. Julie Stuart is a nurse who is Dr. Parsley's right hand. She assists him with the consultations, harvesting the tissue, and is a great graft cutter. She orders supplies, keeps the O.R. in tip-top shape, and organizes all of the photographs of the patients. Her hobbies include counted cross-stitching, Catholic Engage Encounter, working with Down's Syndrome children, and Jay, her wonderful husband. Dr. Parsley is the "KING" of the office. Renee Dickerson is a nurse who cuts grafts. She keeps busy with her son Jacob's activities. She enjoys exercise and baseball games. Though not pictured, additional staff includes Courtney Roehrig, a cutter and a receptionist in our office. She is a busy mom to Hannah and Kennedy. Lindsay Wildt is a receptionist and student at Jefferson Community College. We work and have fun together. Follicular unit grafting requires a team approach and this is our team at the Parsley Hair Center. ♦

Guidelines for Submitting Articles to the *Forum*

All submissions to the *Forum* must be in electronic format: e-mail, 3.5" PC-formatted disk, or PC-formatted Iomega Zip 100 disk. We prefer Microsoft Word documents, however, WordPerfect and ASCII text files are also acceptable. Please adhere to the following additional guidelines when submitting your article(s):

- ✓ E-mail submissions will only be accepted with an **ATTACHED** document file—**do not** embed the file in your e-mail as we will be unable to use it. Your e-mail program should have an option to attach a file. When e-mailing an article, also be sure to attach any graphic files as well. Artwork (images) must be separate attachments (see bullet #3).
- ✓ If you are mailing your article, please submit both a hard copy of the article(s) **AND** a disk with the article and any graphic files (TIFF, JPEG) copied onto it. Before mailing, please be sure that your article did in fact copy onto the disk.
- ✓ Any artwork, photos, or figures that are referenced in your article must be enclosed with your mailed submission or saved on the disk in either TIFF or JPEG format. Any graphics that are submitted for scanning must be clean, original copies. **When scanning photos for submission, please scan in black and white at a minimum of 150 dpi; for best output, scan at 300 dpi. Keep in mind that most figures appear no larger than 3 inches (width) in the publication, so size accordingly. (This will also reduce the size of your TIFF/JPEG file and keep it manageable.)**
- ✓ Please submit clean originals and clear photos. If you need artwork, graphics, or photos returned, please supply a self-addressed, stamped envelope with your submission and they will be returned promptly.

Send your submissions to:

William M. Parsley, MD
310 East Broadway, Suite 100
Louisville, Kentucky 40202-1745

E-mail: bparsley@bellsouth.net

**Please Note: All entries will be returned if incomplete or not adhering to guidelines.*

GRAFTCYTE™ SYSTEM A Head Start on Healing

Specially formulated for hair transplant patients, the GraftCyte™ System provides a quick road to recovery by promoting a healthy healing environment. GraftCyte™ products enhance tissue repair while increasing patient comfort by keeping the graft area moist and richly supplied with our patented copper peptide micronutrient.

Because patients will see reduced crusting and a rapid return of healthy hair, follow-up procedures are possible sooner than ever before. Convenient and easy to use, the GraftCyte™ System can easily be tailored to any patient's lifestyle. Enhance the cosmetic benefit of your hair transplant procedures. *Give your patients a head start for a successful recovery.*
