

SMP WORKSHOP

OCTOBER 14-16, 2018

Walnut Creek, California
(Immediately after the
Hollywood, California
ISHRS World Congress
Meeting)

Micropigmentation of the scalp is one of the best adjunctive treatments to gain traction in the past few years. It is an excellent technique for making hair appear denser, with or without a transplant.

If you are a serious hair transplant practice, you need to know how this new technology will fit into your practice and the many different applications it can have. Drive up the California coast or fly the 45 minute airplane ride from Hollywood to Northern California for this worthwhile conference extender!

HAIR LOSS DIAGNOSIS COURSE FOR THE NON-DERMATOLOGIST

What You MUST Know If You Are Performing Hair Transplantation Surgery

FREE VIEWING FOR ISHRS PHYSICIANS

- ▶ Over 3.5 hours of lectures and discussion
- ▶ Recorded at the ISHRS 2017 World Congress Prague
- ▶ No CME credits issued for watching this course
- ▶ Internet/online video files.

LEARNING OBJECTIVES

Upon completion of this course you will be able to:

- ▶ Describe many hair loss disorders as well as common scalp dermatologic conditions that the hair transplant surgeon may encounter.
- ▶ Discuss the diagnosis and treatment of many non-androgenetic alopecias.
- ▶ Recognize when hair restoration surgery is indicated.

COURSE DESCRIPTION

The course covers all aspects of hair loss diagnoses, classification, treatment, and management. An emphasis is placed on understanding the anatomy and the hair growth cycle to better understand the pathologic consequences of hair loss. The course includes an in depth review of male and female pattern hair loss as well as diagnosing and managing cicatricial forms of alopecia. Common inflammatory scalp conditions is also reviewed to insure participants have a better understanding of managing scalp disorders as well as recognizing benign and malignant scalp tumors that may arise in the consultation process. An emphasis on recognizing alopecia areata and managing hair loss in women is discussed as well as understanding PRP and its therapeutic indications.

2014 - post 2 HT (2000 grafts)

2017 - still pulling

Lichen Planopilaris

- ▶ Band-like "lichenoid" inflammation at infundibulum of hair follicle and the attached ectothelium

How Does PRP Treat Hair Loss?

Growth factors → (Wnt)/β-catenin → ERK/AKT pathway activation:

- Promotion of vasculatization
- Promotion of angiogenesis
- Triggers anagen entry
- Extends anagen duration
- Information/oxidative stress reduction
- Triggers hair stem cell regeneration

Editorial Guidelines for Submission and Acceptance of Articles for the *Forum* Publication

- Articles should be written with the intent of sharing scientific information with the purpose of progressing the art and science of hair restoration and benefiting patient outcomes.
- If results are presented, the medical regimen or surgical techniques that were used to obtain the results should be disclosed in detail.
- Articles submitted with the sole purpose of promotion or marketing will not be accepted.
- Authors should acknowledge all funding sources that supported their work as well as any relevant corporate affiliation.
- Trademarked names should not be used to refer to devices or techniques, when possible.
- Although we encourage submission of articles that may only contain the author's opinion for the purpose of stimulating thought, the editors may present such articles to colleagues who are experts in the particular area in question, for the purpose of obtaining rebuttal opinions to be published alongside the original article. Occasionally, a manuscript might be sent to an external reviewer, who will judge the manuscript in a blinded fashion to make recommendations about its acceptance, further revision, or rejection.
- Once the manuscript is accepted, it will be published as soon as possible, depending on space availability.
- All manuscripts should be submitted to forumeditors@ishrs.org.
- A completed Author Authorization and Release form—sent as a Word document (not a fax)—must accompany your submission. The form can be obtained in the Members Only section of the Society website at www.ishrs.org.
- All photos and figures referred to in your article should be sent as **separate** attachments in JPEG or TIFF format. Be sure to attach your files to the email. Do NOT embed your files in the email or in the document itself (other than to show placement within the article).
- Images should be sized no larger than 6 inches in width and should be named using the author's last name and figure number (e.g., TrueFigure1).
- Please include a contact email address to be published with your article.

Submission deadlines:

October 5 for November/December 2018 issue
 December 5 for January/February 2019 issue
 February 5 for March/April 2019 issue

Please note new submission address:
forumeditors@ishrs.org
