2ND GEN COMING SOON

LaserCombs and LaserBands

The HairMax Advantage

Patented Hair-Parting Teeth

Hair is a photoprotectant for the scalp. The teeth part the hair to create an unobstructed pathway for maximum laser delivery to hair follicles. Teeth can be removed for use after hair transplantation.

Laser Profile: Dense & Aligned

HairMax laser diodes are closely placed within the devices to provide consistent and uniform delivery of laser light to hair follicles.

Medical Grade Lasers with Lenses for Focused Energy

HairMax lasers have lenses that deliver collimated light. This focused light penetrates the scalp to better stimulate hair follicles, unlike laser devices without lenses.

Monotherapy or Adjunctive Use

The Ideal Choice

Full Scalp Coverage

Fastest Treatment Time

LaserBand devices provide coverage equivalent to 246 lasers.

8 FDA Clearances* & 14 International Medical Device Licenses

The pioneers in laser hair growth, innovating the FIRST FDA CLEARED* home use laser device on the market.

7 Clinical Studies with 460 Men & Women

Studies conducted at top medical research hospitals. Peer reviewed in 6 medical journals.

Complete Hair Care Line Available

To provide comprehensive care for thinning hair.

The Leader In Laser Hair Growth

Speak with a HairMax Med Professional **561.417.0200** (ext. 112) or **1.888.841.2535** | HairMaxPro.com

*HairMax Laser devices are indicated to treat Androgenetic alopecia, and promote hair growth in males who have Norwood Hamilton Classifications of IIa to V and in females who have Ludwig (Savin) I-4, II-1, II-2, or frontal patterns of hair loss and who both have Fitzpatrick Skin Types I to IV. The HairMax Laser 272 is indicated to promote hair growth in males with Androgenetic alopecia who have Norwood-Hamilton Classifications of IIa - V, or females with Androgenetic alopecia who have Ludwig-Savin Classifications I - II or Frontal and for both with Fitzpatrick Skin Phototypes I - IV.

HAIR LOSS DIAGNOSIS COURSE FOR THE NON-DERMATOLOGIST

What You MUST Know If You Are Performing Hair Transplantation Surgery

FREE VIEWING FOR ISHRS PHYSICIANS

- ▶ Over 3.5 hours of lectures and discussion
- ▶ Recorded at the ISHRS 2017 World Congress Prague
- ▶ No CME credits issued for watching this course
- ▶ Internet/online video files.

LEARNING OBJECTIVES

Upon completion of this course you will be able to:

- ▶ Describe many hair loss disorders as well as common scalp dermatologic conditions that the hair transplant surgeon may encounter.
- ▶ Discuss the diagnosis and treatment of many non-androgenetic alopecias.
- ▶ Recognize when hair restoration surgery is indicated.

COURSE DESCRIPTION

The course covers all aspects of hair loss diagnoses, classification, treatment, and management. An emphasis is placed on understanding the anatomy and the hair growth cycle to better understand the pathologic consequences of hair loss. The course includes an in depth review of male and female pattern hair loss as well as diagnosing and managing cicatricial forms of alopecia. Common inflammatory scalp conditions is also reviewed to insure participants have a better understanding of managing scalp disorders as well as recognizing benign and malignant scalp tumors that may arise in the consultation process. An emphasis on recognizing alopecia areata and managing hair loss in women is discussed as well as understanding PRP and its therapeutic indications.

Editorial Guidelines for Submission and Acceptance of Articles for the *Forum* Publication

- Articles should be written with the intent of sharing scientific information with the purpose of progressing the art and science of hair restoration and benefiting patient outcomes.
- If results are presented, the medical regimen or surgical techniques that were used to obtain the results should be disclosed in detail.
- Articles submitted with the sole purpose of promotion or marketing will not be accepted.
- Authors should acknowledge all funding sources that supported their work as well as any relevant corporate affiliation.
- Trademarked names should not be used to refer to devices or techniques, when possible.
- Although we encourage submission of articles that may only contain the author's opinion for the purpose of stimulating thought, the editors may present such articles to colleagues who are experts in the particular area in question, for the purpose of obtaining rebuttal opinions to be published alongside the original article. Occasionally, a manuscript might be sent to an external reviewer, who will judge the manuscript in a blinded fashion to make recommendations about its acceptance, further revision, or rejection.
- Once the manuscript is accepted, it will be published as soon as possible, depending on space availability.
- All manuscripts should be submitted to forumeditors@ishrs.org.
- A completed Author Authorization and Release form—sent as a Word document (not a fax)—must accompany your submission. The form can be obtained in the Members Only section of the Society website at www.ishrs.org.
- All photos and figures referred to in your article should be sent as *separate* attachments in JPEG or TIFF format. Be sure to attach your files to the email. Do NOT embed your files in the email or in the document itself (other than to show placement within the article).
- Images should be sized no larger than 6 inches in width and should be named using the author's last name and figure number (e.g., TrueFigure1).
- Please include a contact email address to be published with your article.

Submission deadlines:

February 5 for March/April 2019 issue
 April 5 for May/June 2019 issue
 June 5 for July/August 2019 issue
 August 5 for September/October 2019 pre-meeting issue
 October 5 for November/December 2019 issue

Please note submission address:
forumeditors@ishrs.org

Classified Advertising Guidelines for Submission

To place a Classified Ad in the *Forum*, email cduckler@ishrs.org. In your email, include the text of what you'd like your ad to read. You should include specifics in the ad, such as what you offer, the qualities you're looking for, and how to respond to you.

Classified Ads cost \$100 per insertion for up to 75 words. You will be invoiced for each issue in which your ad runs. The *Forum* Advertising Rate Card can be found at the following link:
