JULY 24 TO 25 2020
ST. LOUIS, MISSOURI, USA
Classified Ads

Seeking Hair Transplant Physician
We want to hire a hair transplant surgeon. Join our awesome team! We are looking for an employee first and would definitely want to transition you to a partner. We specialize in facial and body plastic surgery. We are located in downtown Bellevue—home of Microsoft, Bill Gates, and a fast growing city that is 10 minutes from Downtown Seattle, Washington, USA. Applicants must reside in the United States and have a current active Medical License.
Please contact us at contactus@afbplasticsurgery.com.

Seeking Hair Transplant Physician and Technicians
Anderson Center for Hair in Atlanta, Georgia is looking for a full-time hair restoration physician and full-time technicians. We are a state-of-the-art, brand-new boutique center. We perform one procedure per day, with emphasis on quality, ethics, and natural results—not quantity. On-the-job training available for physicians. Technicians will require experience, with references required. Outstanding, friendly working environment, salary, benefits, insurance, 401k, vision, dental, etc.
Please email your résumé to jobs@andersonhsc.com.

Seeking Hair Transplant Surgeon
New start up clinic in St. Louis, MO is seeking an experienced hair transplant surgeon. Must be eligible for a Missouri medical license and willing to travel to our clinic 2-5 consecutive days per month. This is a great source of supplemental income to your existing practice. Please email your résumé to gakreyling@hotmail.com.

Seeking Surgeon for Hair Transplant Center
Parsa Mohebi Hair Restoration, a leading hair transplant institute, is hiring a physician for our new San Francisco office. Responsibilities include patient care and research in the field of hair restoration. No prior hair restoration experience required. Training provided by Dr. Mohebi.
Ideal candidate must possess a valid California medical license and have good hand-eye coordination. Position includes health/dental insurance, 401k.
If interested, send cover letter and resume to info@parsamohebi.com.

For Sale: ARTAS® Robotic System with Chair
2015 ARTAS Robotic System for sale. System includes patient chair and was only used a few times. The system was originally purchased in 2015 for $250,000 and is in excellent condition. Asking price of $80,000 or best offer.
Email info@parsamohebi.com for more details or to make an offer.

WE’VE MOVED!
ISHRS Headquarters has a new home!
1932 S. Halsted St., Suite 413
Chicago, IL 60608 USA

Korean Society of Hair Restoration Surgery
Paraguayan Society of Hair Restoration Surgery
Polish Society of Hair Restoration Surgery
Swiss Society for Hair Restoration Surgery
Thai Society of Hair Restoration Surgeons

Editorial Guidelines for Submission and Acceptance of Articles for the Forum Publication

1. Articles should be written with the intent of sharing scientific information with the purpose of progressing the art and science of hair restoration and benefiting patient outcomes.
2. If results are presented, the medical regimen or surgical techniques that were used to obtain the results should be disclosed in detail.
3. Articles submitted with the sole purpose of promotion or marketing will not be accepted.
4. Authors should acknowledge all funding sources that supported their work as well as any relevant corporate affiliation.
5. Trademarked names should not be used to refer to devices or techniques, when possible.
6. Although we encourage submission of articles that may only contain the author’s opinion for the purpose of stimulating thought, the editors may present such articles to colleagues who are experts in the particular area in question, for the purpose of obtaining rebuttal opinions to be published alongside the original article. Occasionally, a manuscript might be sent to an external reviewer, who will judge the manuscript in a blinded fashion to make recommendations about its acceptance, further revision, or rejection.
7. Once the manuscript is accepted, it will be published as soon as possible, depending on space availability.
8. All manuscripts should be submitted to forumeditors@ishrs.org.
9. A completed Author Authorization and Release form—sent as a Word document (not a fax)—must accompany your submission. The form can be obtained in the Members Only section of the Society website at www.ishrs.org.
10. All photos and figures referred to in your article should be sent as separate attachments in JPEG or TIFF format. Be sure to attach your files to the email. Do NOT embed your files in the email or in the document itself (other than to show placement within the article).
11. Images should be sized no larger than 6 inches in width and should be named using the author’s last name and figure number (e.g., TrueFigure1).
12. Please include a contact email address to be published with your article.

Submission deadlines:
Forum December 5 for November/December 2019 issue
December 5 for January/February 2020 issue
February 5 for March/April 2020 issue
April 5 for May/June 2020 issue

Classified Advertising Guidelines for Submission

To place a Classified Ad in the Forum, email cduckler@ishrs.org.
In your email, include the text of what you’d like your ad to read. You should include specifics in the ad, such as what you offer, the qualities you’re looking for, and how to respond to you.

Classified Ads cost $100 per insertion for up to 75 words. You will be invoiced for each issue in which your ad runs. The Forum Advertising Rate Card can be found at the following link:
https://ishrs.org/media/advertising-and-sponsorship

Submit your Classified Ad to: cduckler@ishrs.org

General Session
Workshops
M&M Conference

SATURDAY
November 16, 2019
General Session until noon
World Congress ends at noon
WLSW: Triple Crown begins (SMP) at the hotel when the World Congress ends
Gala! in the evening

SUNDAY
November 17, 2019
WLSW: Triple Crown hospital all day

FEATURED GUEST SPEAKERS

Allogeneic Hair Transplantation: Current Status
You likely get the following question asked by your patients...“My friend/brother/cousin has so much hair! Can’t you take some of his and transplant it to me?” Is it possible to transplant hair from one person to another? It has been tried in the past, but success would require harsh immunosuppressive drugs and for this reason, was not a logical treatment. Dr. Kwon has been conducting research on mice and will share with us new, exciting developments. Could this be the future of the field of hair restoration surgery?

Ohsang Kwon, MD
Department of Dermatology, Seoul National University College of Medicine Seoul, Korea

Managing Androgenetic Alopecia with Medical Therapy & Platelet-Rich Plasma for the Treatment of Androgenetic Alopecia
We are all familiar with the tried and true topical minoxidil and oral finasteride. But what about oral minoxidil? Is it an effective medication for AGA? Based on the research trials thus far, what is the appropriate dosing, what are the side effects? The popularity of injecting PRP to treat hair loss has been growing exponentially. There are many protocols and no set treatment standard. Many doctors report positive results. What do we know about PRP for AGA? What is the theory about why it should work? DOES it work? What are the concentrations, intervals, and protocols that doctors are using?

Ramon Grimalt, MD
Department of Dermatology, Universitat Internacional de Catalunya, Barcelona, Spain

Optimizing Hair Health
What we apply to our hair and scalps matters. The value of the global hair care market amounted to nearly 100 billion U.S. dollars in 2017. You can imagine that there are hundreds of thousands of invalidated marketing claims. What is the truth about certain products? Which ones really work? What should we recommend to our patients – or for that matter, to use on ourselves and to recommend for our family and friends – to optimize our hair health? Learn from an accomplished hair research scientist and have the opportunity to ask your questions!

Thomas L. Dawson, Jr., PhD
Agency for Science, Technology, and Research (A*STAR), Institute for Medical Biology, Singapore

Adipose Derived Stem Cells: Where Are They From and What Are They Doing for the Hair Follicle?
We have been hearing a lot about injecting fat as an adjunctive therapy for hair loss and to improve HRS outcomes. What is the rationale? What are the different types of adipose tissue and what is the clinician aiming to do? What does the research say?

Gillian Westgate, PhD
Centre for Skin Sciences, University of Bradford, United Kingdom

The ISHRS is the leader in high quality education for hair restoration surgeons. The ISHRS has achieved the highest level of accreditation to organize education for physicians from the renowned Accreditation Council for Continuing Medical Education.

ERGONOMICS AND PREVENTION OF INJURIES WHEN PERFORMING HAIR RESTORATION SURGERY

The delicate microsurgery and repetitive nature of techniques performed during hair restoration surgery has always lent to concerns of neck and back strains, and thus, proper ergonomics during surgery, for both the surgeon and the technicians. With the popularity of FUE, there are additional concerns as so many hours per day are involved with focus on a small surgical field. Learn and practice from an Applied & Clinical Physiologist about proper posture during surgery and possible ergonomic aids to minimize strain, as well as what exercises and stretching should be incorporated to maintain musculoskeletal balance and health.
