Editorial Guidelines for Submission and Acceptance of Articles for the *Forum* Publication

- Articles should be written with the intent of sharing scientific information with the purpose of advancing the art and science of hair restoration and improving patient outcomes.
- If results are presented, the medical regimen or surgical techniques that were used to obtain the results should be disclosed in detail. If intra-operative or immediate post-operative photos are presented, please submit photos that show results (at least 6 months after surgery) of the procedure being presented.
- Articles submitted with the sole purpose of promotion or marketing will not be accepted.
- Authors should acknowledge all funding sources that supported their work as well as any relevant corporate affiliation.
- Trademarked names should not be used to refer to devices or techniques, when possible.
- Although we encourage submission of articles that may only contain the author's opinion for the purpose of stimulating thought, the editors may present such articles to colleagues with experience in the area in question for the purpose of obtaining further opinions to be published alongside the original article. Occasionally, a manuscript might be sent to an external reviewer who will judge the manuscript in a blind fashion to make recommendations about its acceptance, further revision, or rejection.
- Once the manuscript is accepted, it will be published as soon as possible, depending on space availability.
- All manuscripts should be submitted to forumeditors@ishrs.org.
- An Author Authorization and Release form must be individually completed by every author listed on the byline and the Word document (not a fax) submitted at the time of article submission. The form can be obtained in the Members Only section of the ISHRS website at www.ishrs.org. This release is meant to be signed electronically directly in the Word document. Simply open on your computer, fill in the highlighted fields, and return the Word document with your submission.
- All figures and tables should be sized down to no greater than 6 inches in width and sent as separate attachments to your email.
- For the complete list of instructions and downloadable checklist, go to: https://ishrs.org/wp-content/uploads/2020/06/ISHRS_Forum_ArticleSubmission_checklist_Fillable.pdf.

Panama was the first country outside the United States in which Coca Cola was sold.
Coca Cola was first sold in Panama in 1906.

Panama is the only place in the world where you can see the sun rise on the Pacific and set on the Atlantic.

The first European city on the Pacific Ocean side of the Americas was built in Panama.
On August 15, 1516, Pedro Arias Davila founded the city of Nuestra Señora de la Asuncion in Panama.

PANAMA FUN FACTS

The emergence of the Isthmus of Panama contributed to human evolution. Homo sapiens exist because of the change in climate patterns caused by the emergence of the Isthmus of Panama. Without Panama, humans would still live on trees!

The inventor of "Murphy's Law" was born in Panama. Edward Murphy Jr., best known for the Murphy's law, which is said to state that "anything that can go wrong will go wrong", was born in the Panama Canal Zone in 1918.

The lowest toll ever paid to transit the Panama Canal was 36 cents (equivalent to \$5.13 in 2017), by American Richard Halliburton who swam across the isthmus in 1928.
