

A to Z Surgical, Inc.

A New and Innovative Company Specializing in *Instruments, Supplies and Educational Material* for Hair Transplant Surgeons.

A to Z is now offering 2 new educational tools:
A Teaching Video and A Comprehensive Textbook.

- **500 Mini and Micro Grafts, Before or After Lunch**, © 1995, a 72 minute video with James Arnold. In this video, transplantation of large numbers of small grafts is greatly simplified by using "finger style" techniques and finger-sized instruments. With this approach, even newcomers to the field can transplant large numbers of quality grafts in a reasonable period of time. \$175
- **Hair Transplantation**, edited by Walter P. Unger, © 1995. This 3rd edition of Dr. Unger's classic book has been revised and expanded to 830 pages. The text reviews hair replacement surgery from it's earliest inception to the latest techniques in micrografting. The contributing authors have done an excellent job covering the various approaches used in hair replacement surgery, and Dr. Unger has done an outstanding job as editor. This text is a "must" for all surgeons interested in the field. \$195
- **Also**, A to Z Surgical has a line of new and unique instruments: A new multi-blade knife - "held by the fingers, used like a pen", The Lightning Knife™ - for rapidly creating incisional slits. And more.
